

The power of connected minds

PostDoc - BASF Open Research Center NAO - Polymers Tsinghua University (m/f)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

BASF has been a committed partner to Greater China since 1885. With major investments in Nanjing, Shanghai and Chongqing, BASF is one of the largest foreign investors in the Chinese chemical industry. We maintain the BASF Innovation Campus Asia Pacific in Shanghai as a research and development hub for the Asia Pacific region, focussing on polymer and advanced materials research, formulation and process engineering.

If you live outside Europe, please apply here: <http://on.basf.com/1ljq7v>

What you can expect

- Being part of the research team at Tsinghua University, you will design polymer systems for industrial applications in collaboration with global R&D teams of BASF.
- o You will have the chance to develop your international experience and your competencies - key success factors for your future career.
 - o You will also get the opportunity to discover BASF and the various career possibilities within the company.
 - o This PostDoc position is your possibility to prepare yourself for a potential career at BASF - we provide priority hiring to candidates in the early stages of the NAO program for job openings in the Global BASF R&D platforms.

What we expect

- o You have already graduated or are going to graduate soon with your PhD in materials science or polymer science.
- o You possess rich experiences in polymer material especially in polymer dispersion and colloids.
- o You are highly motivated by research activities and due to your excellent English communication skills, you feel comfortable working in an international team.
- o You enjoy taking initiative, responsibility and working in a cooperative as well as team-oriented atmosphere.
- o As a creative and innovative person, you are able to identify opportunities or problems and to proactively make decisions.

We offer

Responsibility from day one in a challenging work environment and "on-the-job" training as part of a committed team.
